Plans Coming Together

Planning is well under way for our annual Fly-in/Drive-in Pancake Breakfast to be held on Sunday, May 28 in the main hangar at Harry Clever airport. We will begin serving at 7:30 and continue until about 2:30 in the afternoon. The regular breakfast menu as in the past will be served at a very reasonable cost of \$5.50 with a junior breakfast only costing \$3.50. Members are not only encouraged to be there for the festivities but to bring their families and show their support for general aviation. Members will need to make an effort to be at the airport on Saturday morning to clean up and prepare for Sunday's event. After the chores are done, we will retire to a friendly eatery to enjoy a lunch and good conversation. Weather permitting, we will take to our aircraft and sail away to a remote area. The alternate will be to enjoy a 99¢ burger at the Perfect Landing Restaurant located on the field. As usual members are requested to bring a 12-pack of soda and a bag of ice on the morning of the fly-in. Brad Buss and Charlene Gillam have been hard at work procuring raffle

prizes. We will be offering chances toward a 1/5 remote control car and a subscription to GA News magazine. Perfect Landing Restaurant is donating the car and GA News is donating the magazine subscription. In addition, raffle tickets will be sold for an opportunity to ride the Ford Tri-Motor scheduled to be at Harry Clever on June 28-29. Four seats will be given away to a lucky ticket holder. Thanks to Remax Realty, Ron Prince, Realtor for donating two tickets and to Aircraft Sales, Hank and Matt Kozub, owners, for donating the additional two tickets. Support from these individuals makes raising money to support the chapter activities just that much easier. Anyone wishing to sign up for a job prior to the event needs to contact Frank Price. Frank has the planning for these fly-ins down to an exact science.

Plans Coming Together

With time fast running out, Perhaps it will not be amiss to re-run last month's article about the excitement Chapter 1077 hopes to generate with the visit of the Ford Tri-motor.

By now most will be aware that EAA Chapter 1077 will be the hosts for one of

the highly sought after visits by the 1929 Ford Trimotor. The dates for the activities will be June 28-29. As of the most recent plans, The Tin Goose will tentatively arrive on the 27th, fly a limited schedule on the 28th, fly a full day's schedule on the 29th, and depart for its next destination on the evening of the 29th. EAA's Ford Trimotor is a living representation of the world of aviation in the late 20s-early 30s. It is a highly sought after and reasonably priced opportunity to rediscover what flying must have been like during the Golden Years of Aviation. Anyone interested in being part of the ground support party are encouraged to make your interest known at the next meeting. We will need at least four people to work each shift during the event. More detailed information will be available at the April meeting. Please plan on attending so you, too, can be a part of recreating history right here in Tuscarawas County.

Rides will be available on a pre-sale as well as onsite basis. It is recommended that anyone wishing to reserve their seat on the flight go to <http://www.flytheford.com>. Non-Members ride for \$50, card-carrying EAA members are reminded that they receive a discounted ticket for \$40, and the copilot spot is \$100. Terry Henry wanted to make sure everyone was aware that these rides make excellent gifts to family members and friends.

May Meeting Back at Aircraft Sales

After a brief discussion, members decided that having supper prior to the general meeting on scheduled Wednesday nights was a good thing. Therefore, we will once again make our way to the Perfect Landing Restaurant for one of those delicious meals offered by our friends, Holly and Winnie, at the above mentioned place. Try to be there by 6:00 PM so you can get dinner served and still

be on time for the general meeting to be held in its usual place at Aircraft Sales hangar. Members eating at the restaurant will make their way to the Aircraft Sales hangar under their own power and will not receive any dispensation for the fact that they overate at the sitdown.

Chapter By-Laws

Chapter members are reminded that a second reading and final adoption of the Chapter By-Laws will take place at our meeting on May 10. Be aware that the by-laws are the most important set of rules that we can implement that lets us carry on the business of our organization. Without by-laws conducting business and operating projects and activities is virtually impossible.

The Flyouts Continue

Several excellent short trips have been made by chapter members in the past few weeks. Although the weather has been less than hoped for, it is still possible to make short trips without too much difficulty.

One fine Saturday morning found us flying to Carrollton for lunch only to encounter a misty rain upon our return to Harry Clever. On another day, the faster aircraft were employed to make a much farther trip. This time we made our way up to Airpark at Salem, Ohio. Salem is just north of Alliance.

The local EAA chapter was serving a very tasty bowl of chili. With good weather, there was quite a line-up of airplanes parked across the strip from the hangar. Check out the picture page for more of the fun activities had by our small group. Remember, if you want to take part in the fun, just show up at the Pilot shack before 10:00 AM on Saturday mornings. Now that several members have purchased aircraft, it is not hard to find enough seats going on any of our many fly-outs.

Successful Safety Seminar

Saturday, April 22, was not very good from a weather or flying standpoint but it certainly was informative to the group that showed up to hear about Certifying Experimental Aircraft and the latest technology information available for IFR pilots.

It would be very easy to say that a very attentive audience was able to get first-hand information that was accurate and up-to-date.

As a matter of fact, a general comment was made at the Chili Fly-in at Salem that they stole the idea of a Saturday seminar, in that, just that kind of event was held prior to the serving of chili.

Website Back Up

Chapter 1077's website ran into a problem recently in that the webmaster was unavailable to maintain the site and keep the server space current. The yearly fee has been paid, and Glenn Davis, the newsletter editor, has taken over the duties of webmaster and has been making updates to the website. Glenn's skills at writing HTML are certainly inferior to Chris Larsen's, but the membership is asked to have patience and not expect too much too quickly.

Chapter Newsletter

Don't forget to go online and download the color version of this newsletter. The address for our website is <http://www.eaa1077.org>. It is also recommended that you sign on to the Chapter Forum while you are there.

Fly-out Pictures

Forrest Barber seems to have the knack of gathering a group around him wherever he goes. Wonder what words of aviation wisdom were being shared?

Hard to see the group huddled around this aircraft but they comprised the representatives at the Chili fly-in at Salem, OH.
